CARPIQUET COLLAPSE!

Casualties mount as the Canadian offensive to take the airfield at Carpiquet failed on its third day.

British and Canadian troops have enveloped the city of Caen from the north and west, but the tenacious German defenders have stymied progress.

Operation Windsor was supposed to break the deadlock, turning the enemy flank and driving into the city, finally creating the desperately needed breakout.

Women!

FOR A HEALTHY, HAPPY JOB...

Join the WOMEN'S LAND ARMY

How often women say "I've only one pair of hands..." But today, no less than during the war, YOUR One Pair of Hands is badly needed. NOW it's on the land, to help make sure this country doesn't go

short of food. You'll find it such a healthy, satisfying job, too, working among growing things, seeing crops ripen, and animals thrive. The countryside's a friendly place ready to welcome you.

Minimise the Risk

Many of the casualties caused by shrapnel, bayonet, spent bullets and splinters could be prevented by wearing the 'Crossman Body Shield.'

It is made from the same class steel as the helmets which have proved so valuable in saving life. It is constructed to fit the body for the purpose of deflecting rifle and machine gun fire.

The 'CROSSMAN'

(HUNT'S PATENT)

BODY SHIELD

Adjustable, weight almost imperceptible, no restriction or discomfort to wearer. Covered khaki twill. The top and bottom edges are constructed with a slightly outward curve to prevent bayonet thrusts from glancing off the shield either up or down.

LANCS BOMBARD CAEN

Swarms of droning Lancasters departed airfields across the England to support our brave boys in the battle for Caen.

These air raids should soften up the German fortifications around the city and give our boys a chance when the big push is finally launched!

Darting ahead of the pack were nimble Mosquito fighter-bombers, loaded down with incendiary and illumination bombs to paint targets for the Lanes!

It's time to pay the Germans back for the devastation of London, Coventry and Portsmouth!

CARRIER FORCED HOME!

HMS Furious has sprung a leak serious enough to force it back to Portsmouth.

Sources close to the dockyard in Portsmouth suggest that the leak may have been caused by a rushed refit earlier in the year.

The converted Courageous-class battlecruiser was on operations off the Norwegian coast, bombing targets vital to the war effort.

Furious and its accompanying squadron were able to hold down several squadrons of Axis aircraft and numerous anti-aircraft units which may now be able to transfer to the Normandy front!

It started taking on water in the early hours of Monday morning and was forced to retire later in the day.
